

PRESS RELEASE

02/05/2025

EODH DYNAMICS a new milestone...

EODH SA has founded the EODH DYNAMICS, a new 100% subsidiary Company, **with a unique portfolio in the Land Defence Industry that covers a wide range of activities**, from the Research and Development level, to the Prototype Manufacturing, and finally to the **large-scale Industrial Production of all types of Combat and Support Equipment & Systems** in the Land Defence Sector.

Building on EODH' long term successful track record and strength within the European Defence ECO System, EODH DYNAMICS will be capable to Design, Develop and Manufacture Land Vehicles and Systems, and provide FOS, Mid-Life Upgrade and Modernization of Land Defence systems of the Greek and Allied Armed Forces.

The new Company also through Synergies, existing Partnerships, Strategic Cooperation Agreements and Running Framework Contracts including by forging all the necessary Alliances with Key Players in the field of Land Defence Industry on Local, European and International Level, will play an important role "in the needed capacity" of the New European Defence Environment.

New Production facilities 10.000m² with state of the Art machinery and 200 highly skilled workforce coupled with Artificial Intelligence and Robotic Technologies will prove soon EODH DYNAMICS' vision into a successful future. **The construction of New Factory was awarded to Preconstructa SA with a “turn key” contract and completion period in one year.** The procurement of **new machines** and equipment is on an ongoing process.

The Design of the Production Facilities is based on international standards, with heavy-duty industrial floors, high-capacity overhead cranes, areas for Cutting, Welding, Machining and Vehicle Assembly, Painting and Testing as well as production line for Turrets, RWS and integration of FCS, Electronic and Electro optical Units.

It is worth noting that the Parent company EODH Protection SA recently completed an Investment program with the expansion of activities to a New Facility, following the acquisition and renovation of an existing Factory on an adjacent plot of land and the Supply of industrial production Equipment CNC, 5 AXIS Machines that allowed for **the significant increase in the existing Production Capacity.**

PROFILE

EODH is a Defense and Security Company based in Greece, specializing in innovative Protective Technologies and Survivability Solutions for High-end Platforms worldwide.

With a 20-year track record, EODH has a Proven ability to address complex defense and security challenges. Our expertise in Creative Engineering and market-driven Solutions ensures the delivery of **future-focused Vehicles**, Advanced Upgrade Packages, and **cutting-edge protection systems to counter modern threats.** Continuous development of our products significantly enhances protection levels, signature management, and mobility while meeting the highest quality standards.

Through intensive Research and Development (R&D), EODH continuously introduces innovations in materials, manufacturing processes, and Systems to deliver high-quality products, technologies, and services. Our unique solutions and upgrade packages are trusted by leading OEMs and Armed Forces worldwide.

EODH is a Preferred Partner in the Leopard 2A8, Leopard 2A7, BOXER, and PUMA programs, as well as in the development of other Modern Armored Fighting Vehicles (AFVs). The company plays a key role in the manufacturing and integration of Protection Solutions for major defense Projects in Europe, the U.S.A., and the Middle East and Asia.

A vivid example of EODH's new era is the recent ASPIS (**ADVANCED SHIELDING PLATFORM INTEGRATED SYSTEM**) Agreement, securing protection solutions for both current and future Leopard Family vehicles and the next-generation Main Battle Tank (MBT).
